INNOVATION & TECHNOLOGY

Is A The Heart Of The **GruppoNueva**

A cutting-edge, Innovative site that hosts all of **GruppoNueva's** key departments and production equipment with a Daily capacity of **45,000 SQM.**

Our production plant has the most advanced technology, like Sacmi Ph8200 & and System Lamgea, **“The ceramic mold less press”** is used to achieve the highest quality standards ever seen in the production of porcelain stoneware in India.

These plants and facilities were created to meet the needs of the demanding, modern, and diversified market.

A+ QUALITY & LABORATORY

To Achieve Customer Delight - **Gruppo**Nueva

At **Grupponueva**, our world-class laboratory is a testament to our dedication, assuring you of porcelain and ceramic tiles that meet and exceed the highest **quality standards**, combining advanced technology, skilled professionals, and rigorous testing.

We guarantee product quality adherence to customer or country-specific standards at every manufacturing stage through **in-house production inspection**, continuous during-production monitoring, and pre-shipment inspection systems.

PORCELAIN STONEWARE

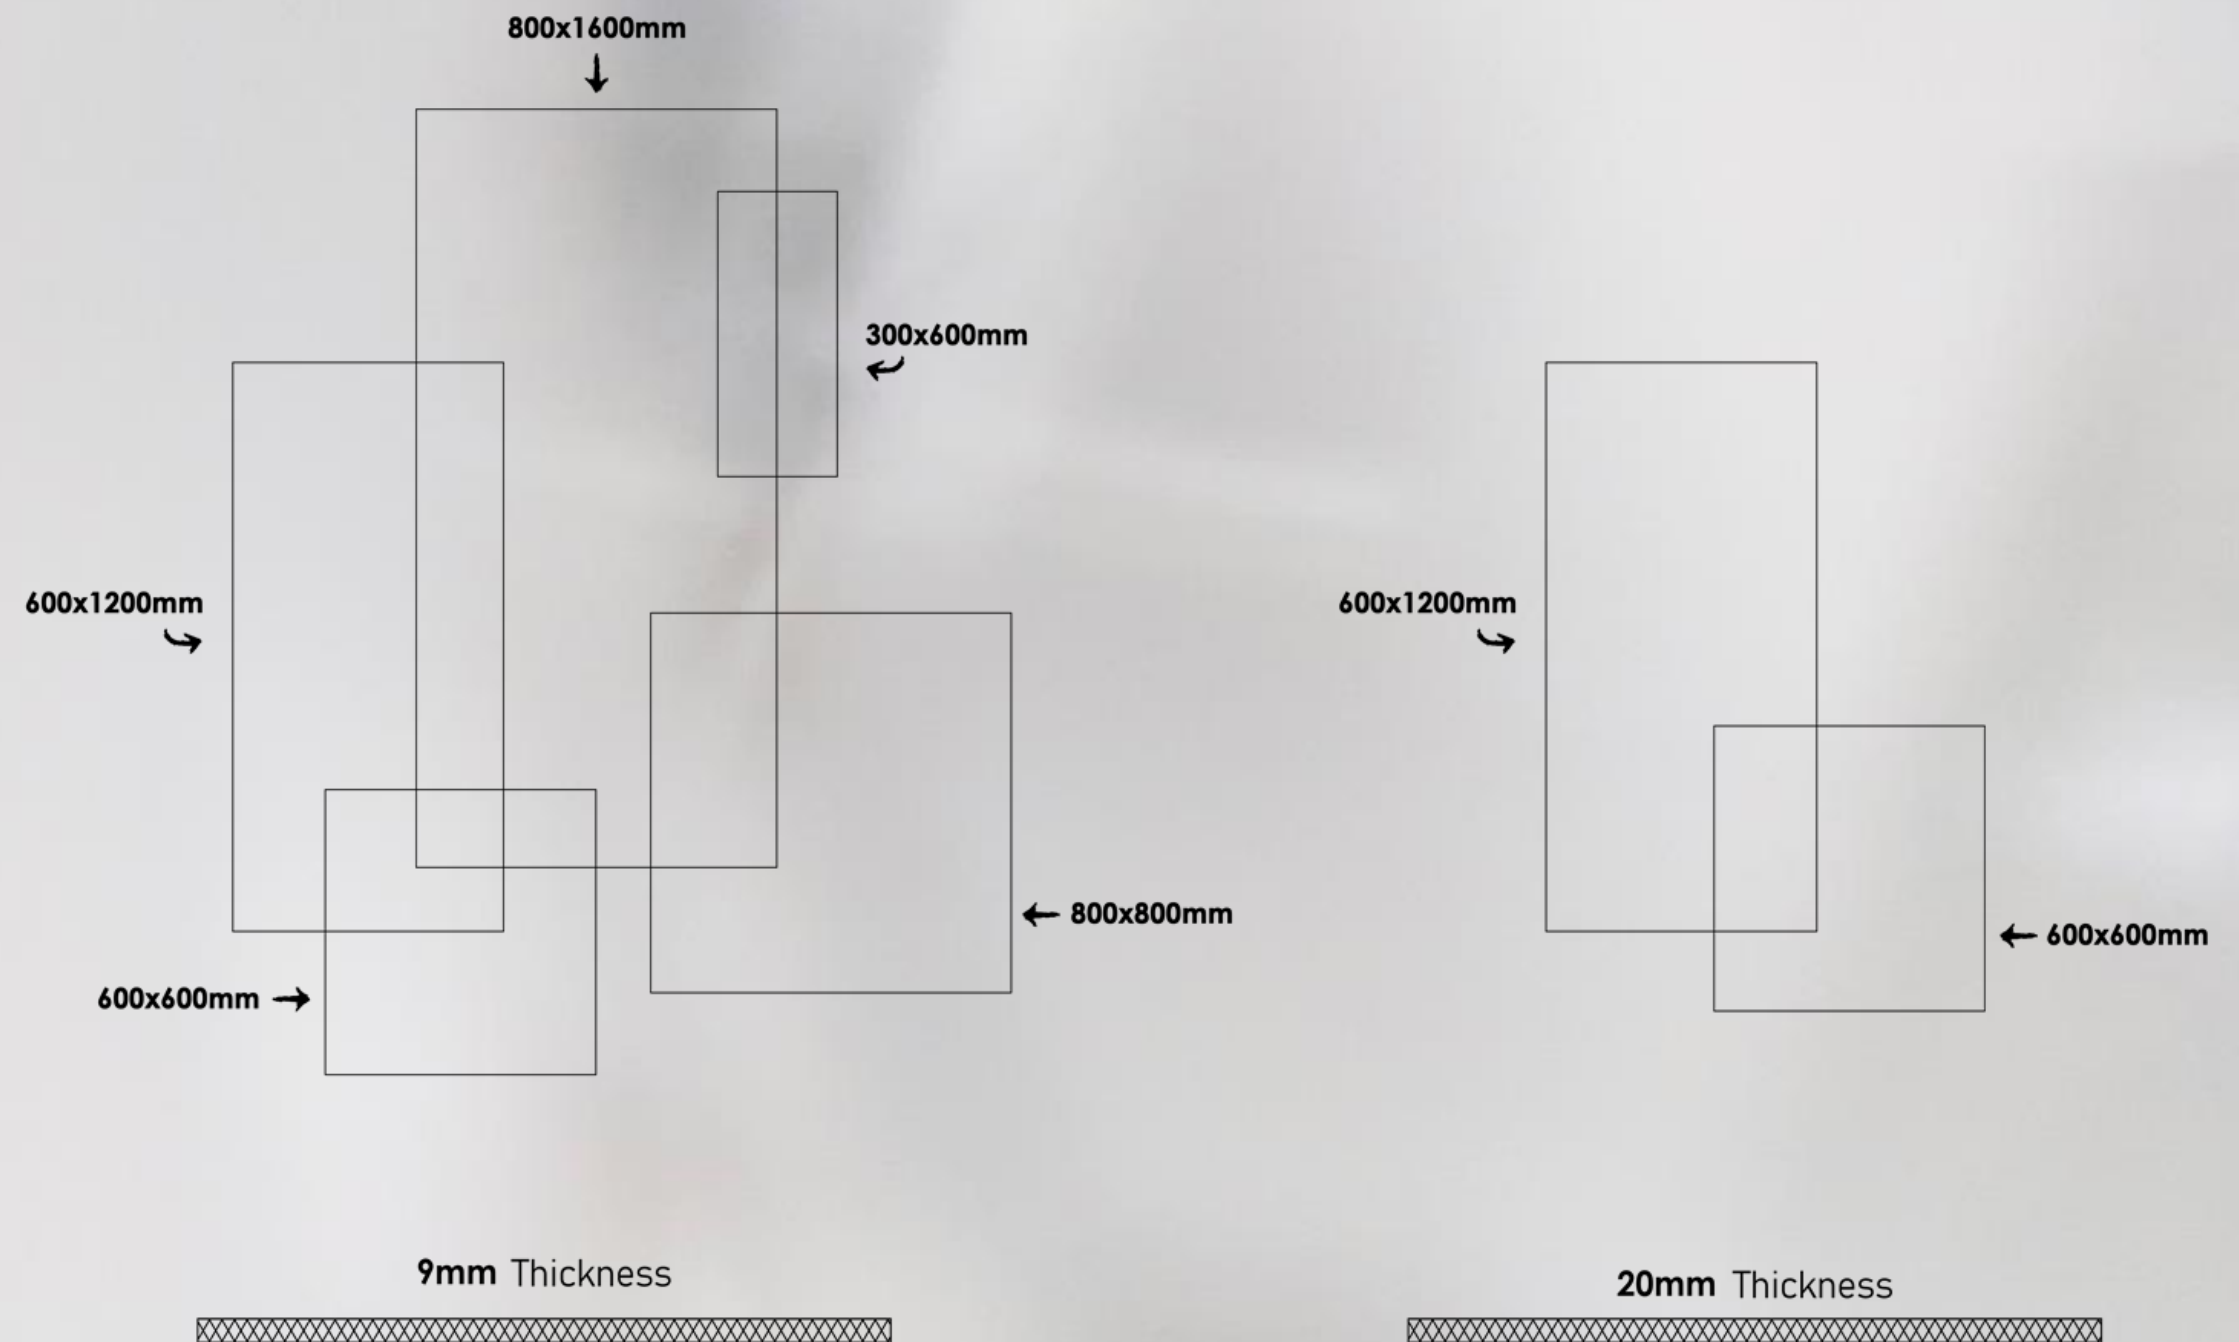

We operate two state-of-the-art glazed porcelain tile lines at Cosa ceramics pvt ltd equipped with modern **100% Sacmi machinery and Kilns** capable of producing the following sizes:

Our Gruppo Nueva production lines feature cutting-edge technological solutions such as Sacmi automation (Italian, ensuring utmost reliability in the production process).

We prioritize product quality, worker safety, and minimal environmental impact.

Our plant and facilities are designed to cater to the requirements of a dynamic, modern, and diverse market.

This modern 1,100,000 square feet site integrates production and logistics, achieving the highest quality standards in the production of both glazed and unglazed porcelain stoneware in India.

Explore the array of versatile sizes of tiles that we manufacture for every need and space. Different tile size impacts the overall appearance, so choose your size as per the look that you desire.

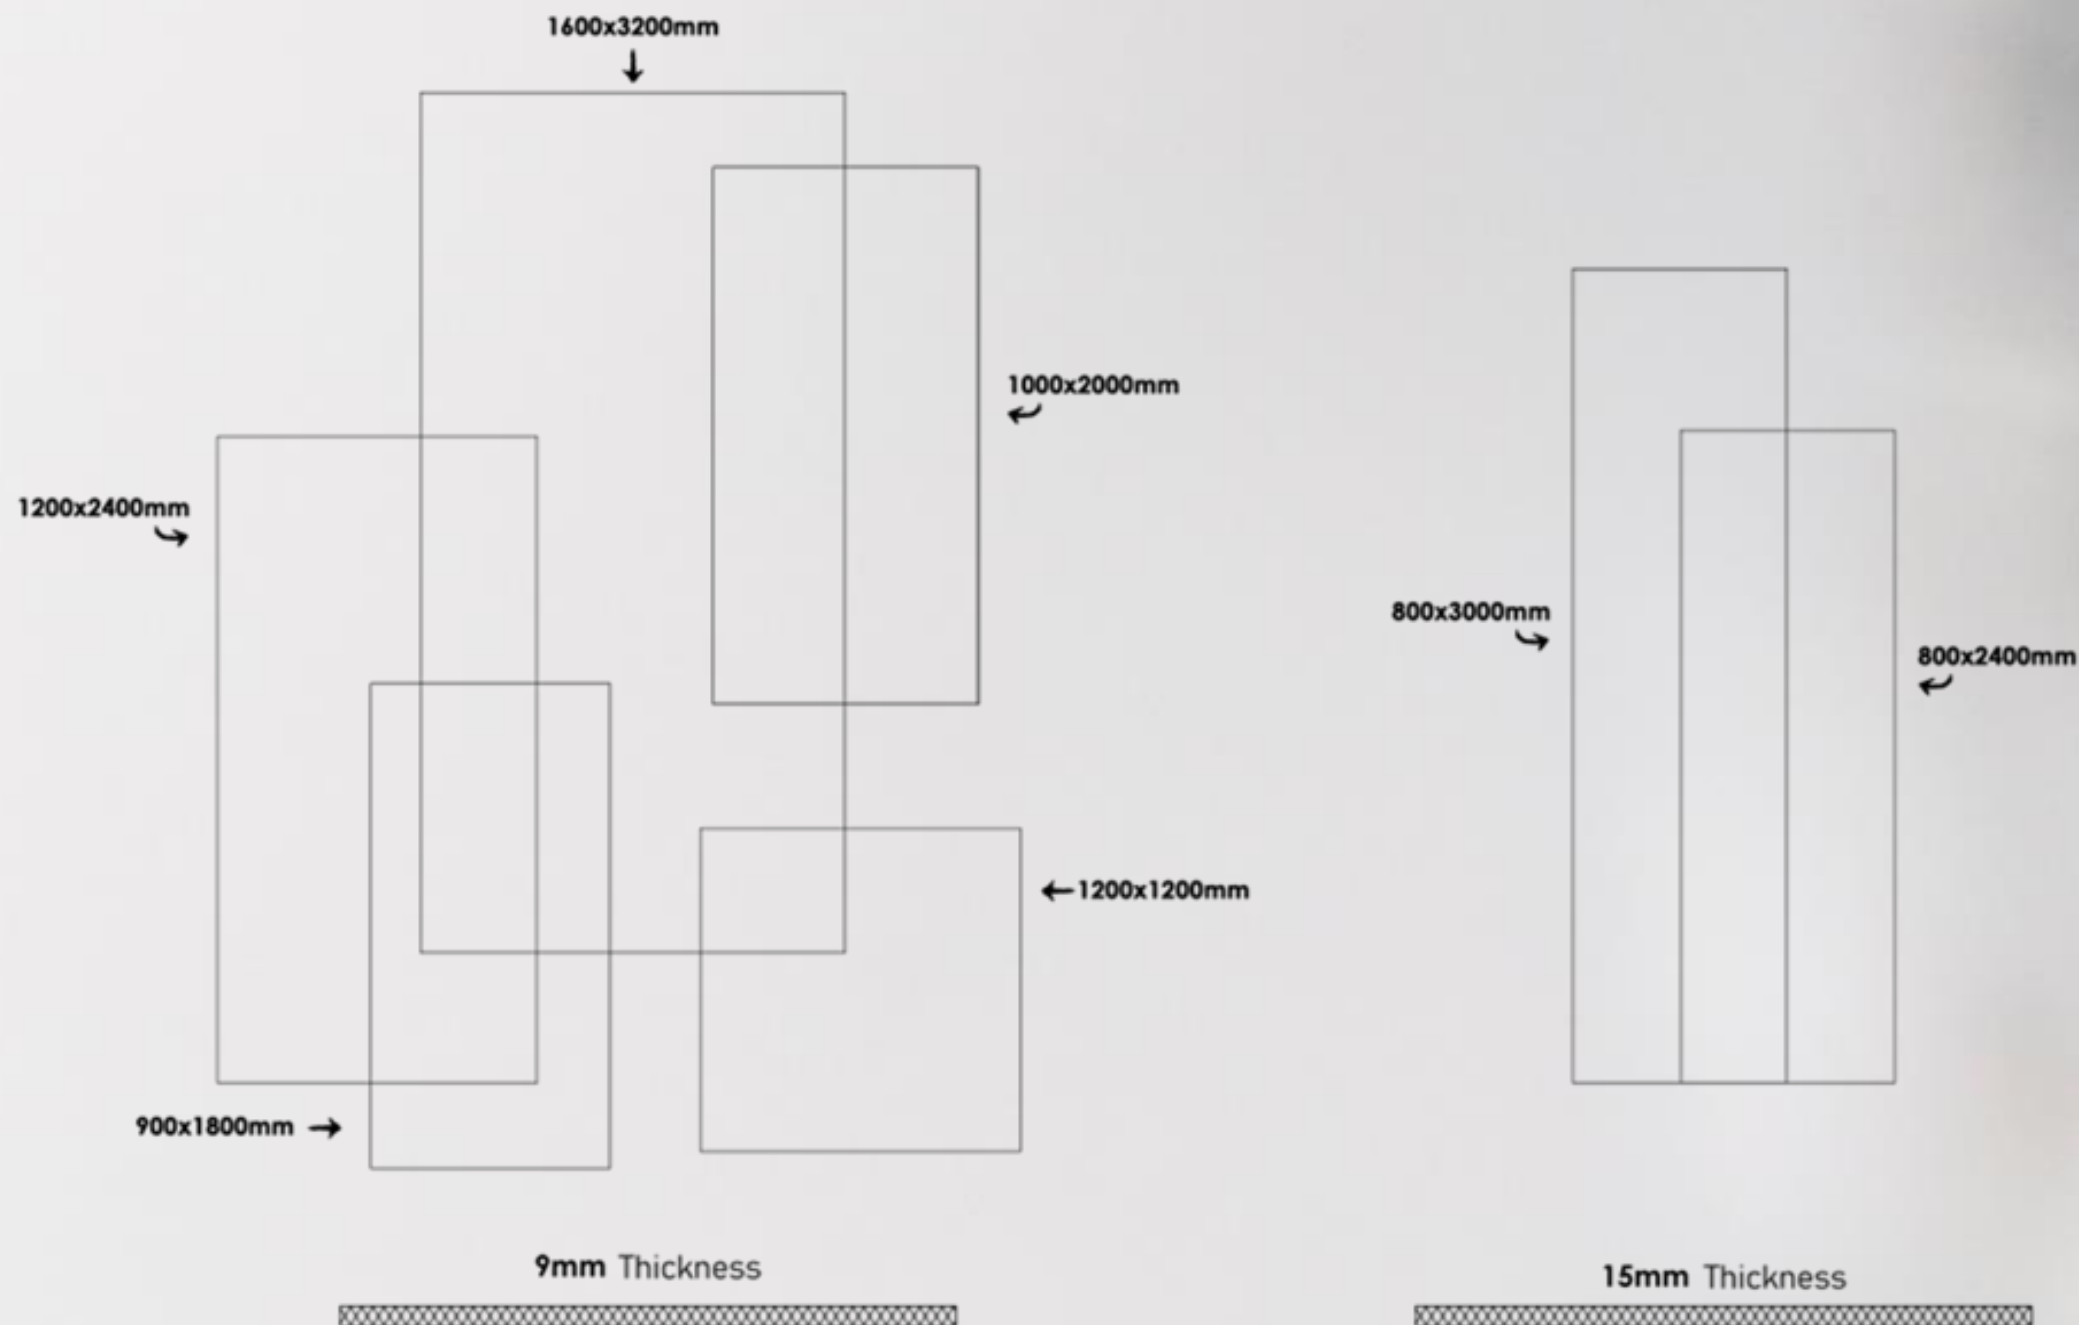

SINTERED STONE

Gruppo Nueva Specializing in sintered stone production, Gryphon Ceramic Pvt Ltd & Floorit Ceramic Pvt Ltd employ advanced technologies such as **System Lemgia and Sacmi Continua Plus**, combined with extensive expertise, to deliver exceptional products.

Both our state-of-the-art facilities are equipped with cutting-edge machinery and kilns meticulously designed for precision and efficiency in manufacturing.

We integrate advanced automation across our production lines, ensuring unparalleled consistency, reliability, and quality throughout every stage of manufacturing.

Our commitment to excellence extends to stringent standards in product quality, employee safety, and environmental sustainability.

Explore the array of versatile sizes of tiles that we manufacture for every need and space. Different tile size impacts the overall appearance. so choose your size as per the look that you desire.

TO ACHIEVE CUSTOMER DELIGHT.
