Heat & Fire
Resistance

Abrasion
Resistance

High Tensile
Strength

Less Water
Absorption

Environment
Friendly

Subway tiles are a popular choice for kitchen backsplashes, bathroom walls, and shower surrounds. This larger size can create a different aesthetic compared to the standard subway tile. It might be used in spaces where you want a more modern or bold look, as the larger dimensions can make a space feel more expansive and contemporary. These larger subway tiles can also reduce the number of grout lines, which some people prefer for easier cleaning and a sleeker appearance.
