MASTERING THE ART OF ELEGANCE

Artistry in Every Tile,

One of the leading manufactures of ceramic tiles in India. We manufacture a great collection of fullbody tiles that come in various styles and sizes. The surfaces from Armano have a charismatic charm that enhances the aesthetic appeal of a space. These surfaces come in colours that are soothing to the eyes and gives a rich look! Armano keeps growing with the latest trends of interior design and architectural styles. We bring together the combination of creativity and comfort by designing tiles by using the latest technology.

Clean Vitrified Tiles at Home & Make Scratch Proof

- 

1. Clean low-traffic floor tiles at least once a week, and high-traffic areas every one to two days. Use a microfiber cleaning cloth to dust the wall tiles weekly. Dirt particles can damage tiles if they are not cleaned or dusted on a regular basis.
- 

2. Use a commercial tile cleaner formulated especially for tile material. Remember, if the cleaner is concentrated, dilute it before use!
- 

3. Once a week, mop the floor tiles using the prescribed cleaning solution. Wipe the walls tiles with this mixture!
- 

4. Use clear water to rinse the cleaning solution from the tiles. If you leave the mixture on the tiles, it will leave a hazy residue that can spoil the tiles.
- 

5. After cleaning, use a soft towel to dry the tiles. In this way, the water stain formation are prevented.
- 

6. For a more thorough cleaning, mix one cup of vinegar with a bucket of scalding water. Then, wipe the floor with a dry, soft mop soaked in the mix. Allow your floor tiles to dry fully before stepping on them.
- 

7. A floor isn't clean until the grouts are thoroughly cleaned. For cleaning the grouts, you can create a solution with one cup of baking soda mixed with 2 spoons of water. Clean the grouts thoroughly and allow the mix to dry for 5-7 minutes. Thereafter, use a toothbrush or any other soft brush to carefully scrape off the mix from the grout. Finally, clean the surface with a moist towel.
- 

8. Avoid using acids and strong detergent products for cleaning as they can damage the floor tiles and grouts. Also, use soft fiber cloth for cleaning.

DIGITALLY PRINTED FULLBODYTILES

Top Exclusive designs Digitally printed on surface of full body tiles makes Rockaura a style statement for you exteriors as well as interiors.

DIGITALLY PRINTED FULLBODYTILES

FULL BODY BASE

Tiles are digitally printed, and the body preparation ensures that the base harmoniously matches the design.

Energize Your Environment with Style

The term "punch" suggests a sense of impact or strength, and punch tiles live up to this expectation by adding a powerful element to interior spaces. They are ideal for creating focal points or accentuating specific areas within a room.
